

# FIRST STAGE

## Cylinder regulator

Item RS813 **NEW!**

- **Integrated valve and 1st stage unit**
- 2 High pressure ports (1 inflator port)
- 3 low pressure ports
- Luminescent pressure gauge face
- Repair kit available

"A great idea and very functional. The integrated valve/1st stage design increases reliability and eliminates a common potential failure point found in a yoke-to-valve or din-to-valve connections. The built-in swivel at the second stage hose port allows convenient and stress-free hose routing. Works well with various types of pony bottle mounts. The integral "peanut" pressure gauge allows a convenient and quick way to check fill status. The fill-station adapter is highly recommended for larger capacity pony bottles."

Garden Cove Divers

## Cylinder regulator

Item RS820 **NEW!**

- **Integrated valve and 1st stage unit**
- Release pressure valve
- 1 low pressure port
- Luminescent pressure gauge face
- Repair kit available

## TANK FILLER

Item TF601 **NEW!**

- Yoke style refill adapter

## REFILL ADAPTER

Item TF602 **NEW!**

- Fill station refill adapter
- Refill directly from an air station
- 3000 psi
- Highly recommended for RS813 & RS820

## ATLANTIS

Item OCFR02 **NEW!**

- Outstanding breathing performance
- High grade chrome brass air supplier sleeve
- Silicone Diaphragm and exhaust valve
- Adjustable
- Repair kit available

OCFR-02 adjustable octopus: "Excellent breathing second stage with the convenience of adjustable resistance. Allows fine-tuning for whatever dive conditions you encounter. Sturdy construction and reliable under whatever demands we placed upon it."

Garden Cove Divers

## AZTEC

Item OCFN02 **NEW!**

- High grade chrome brass air supplier sleeve
- Excellent breathing performance
- Silicone Diaphragm and exhaust valve
- Non-Adjustable
- Repair kit available

OCFN-02 non-adjustable octopus: "Great breathing and sturdy construction. Consistent, steady air supply at all depths and dive conditions."

Garden Cove Divers

## ICE OCTOPUS

Item OC9X

- Adjustable design w/venturi switch
- Soft extended exhaust tee
- Long bite mouthpiece reduces jaw fatigue
- High impact plastic
- High grade chromed brass
- 3/8" low pressure hose
